

SENATOR BRENNAN: Senator Murphy, what it still boils down to is one thing, the insurance companies have never established any reason for the high rates in Nebraska. There is no such thing as an experienced rating as far as liability insurance is concerned. You find it in pretty near every other type of insurance. You are looking for legislation to take care of Nebraskans and it just doesn't do that. You are asking that all the states adopt this same law which you know is a physical impossibility, and if you look at the fact that the surrounding states have either killed the bill or put them under study, I think you will find out that you have got a piece of legislation that is not going to do anybody any good around here. What it will do is seriously restrict the rights of the people of the State of Nebraska. Thank you.
